SpeakerCraft®

2 Channel Amplifiers

When SpeakerCraft set out to develop the custom installation industry's most complete line of amplifiers, we knew we had to have answers for the variety of situations that you encounter. At the SpeakerCraft Technical Training Institute in Riverside, California, our engineers and A/V dealers teamed up to design the Big Bang line of amplifiers. We took our dealer's input seriously, then went to work making their wish list a reality (thanks for the help). The Big Bang series is a highly reliable line of amplifiers that offers a solution for every installation with a variety of power, performance and price points.
